

# CAR RENTAL EXCESS INSURANCE

Protect the excess on your hire car in the UK or Worldwide

Hiring a car can be a great way to get around on your holiday or business trip, but have you considered what would happen if the car was damaged or stolen?

In the event of an accident rental companies will charge you a high excess towards the repairs, on average between **£1000 - £2000**.

For an additional daily fee rental companies will offer to reduce your excess to **£0**. However this daily fee is expensive and this cover can easily be purchased in advance for far less from **your insurance broker**.

Call your insurance broker before your trip for a quick and easy quote tailored to your needs, such as a short-term **7 day cover** or an **annual policy** if you hire cars regularly.

Purchasing car rental excess insurance in advance can save you time, money and sales pressure at the rental desk and provide that peace of mind on your holiday or business trip.
